

# DoD's Move to the Cloud

Box it Up  
or Build New?

	MIGRATE	BUILD NEW
What's in the cloud now?	57% Migrated from Legacy Apps	43% Built New
Most likely type of app?	Traditional Business	Custom Business
Key benefits?	Saves Money and Time	Improves Agility and Mission Success
Top two reasons to move...	Security and Need to Maintain Legacy Data Structure	Security and Speed of Deployment

In an ideal scenario, DoD would like to move **57%** of their applications to the cloud by 2020

When pressed for a realistic estimate, they imagine budgets will allow just **24%** to transition

Migrating <b>27%</b>	and building <b>30%</b> new in cloud
Migrating <b>11%</b>	and building <b>13%</b> new in cloud

If you really had to choose:

**52%** said building new was the smarter long-term investment

Either way:  
Cloud Delivers

 <b>87%</b> Improved Agility	 <b>87%</b> Saved Money	 <b>87%</b> Saved Time	 <b>86%</b> Improved Security	 <b>85%</b> Improved Mission Success
---	--	---	--	---

Regardless of the path you choose, General Dynamics Information Technology can take you there.
